ABOUT OUR COMPANY

Azhar Al-Mishri Trading Company was founded in 1987 by **Mr. Hazem Abdulaziz Al-Dughayther** and has since become a leader in the manufacturing and distribution of a wide range of packaging materials. The company specializes in providing high-quality products, including all types of adhesive tapes and other packaging materials tailored to meet the needs of industrial, commercial, and residential sectors.

Azhar Al-Mishri sources its raw materials and packaging products from top suppliers in Europe and the United States, ensuring that products meet the highest global quality standards. Additionally, these products are manufactured and marketed locally within Saudi Arabia and the Gulf region, supported by a robust distribution network that covers the entire area.

With over **36 years** of experience, Azhar Al-Mishri has maintained strong business relationships with global partners, reinforcing trust and credibility among clients both domestically and internationally. The company's philosophy is grounded in a strict commitment to quality and excellence, ensuring that clients receive optimal packaging solutions that meet their needs with precision and effectiveness.

The company places the needs of its customers at the forefront of its priorities and continuously works on developing its products and services to ensure the delivery of innovative and effective solutions. Additionally, the company is distinguished by having a professional and trained team, dedicated to providing technical support and consultations, ensuring an exceptional experience for its customers at all times.

Azhar Almishri

VISION & MISSION

Vision

Azhar Al-Mishri aims to be the first choice in the packaging and adhesive tape industry in Saudi Arabia and the Gulf region, while maintaining quality and credibility as core values that strengthen its market presence.

Mission

We provide high-quality adhesive solutions that meet the unique needs of our customers. We are committed to enhancing our clients' operational efficiency by offering a wide range of high-quality products built on trust and professionalism.

OUR GOALS

- **High Quality:** Ensuring the delivery of packaging products and services that meet global standards and exceed customer expectations.
- **Continuous Innovation:** Developing new and advanced adhesive solutions to meet the evolving market needs.
- **Customer Satisfaction:** Providing exceptional service to build long-term relationships with customers.
- **Local and International Expansion:** Expanding our customer base both locally and globally through effective growth strategies.
- **Strategic Partnerships:** Building relationships with partners that support mutual growth and enhance innovation.
- **Product Diversification:** Offering a wide range of adhesive tapes to meet various applications and needs.

PRODUCTS

Handheld Plastic Stretch Film

It is a flexible plastic film used for manually wrapping and securing products, often used to secure small and medium-sized shipments or goods on pallets. It is an economical choice for small businesses and provides complete control over the packaging process.

Stretch film for wrapping machines

The stretch film is specifically designed for this machine, offering secure stabilization of pallets and products during wrapping, transportation, and storage. Its durability and flexibility make it compatible with both semi-automatic and fully automatic machines, ensuring a smooth, fast wrapping process for optimal protection and stability.

Robot wrapping machine film

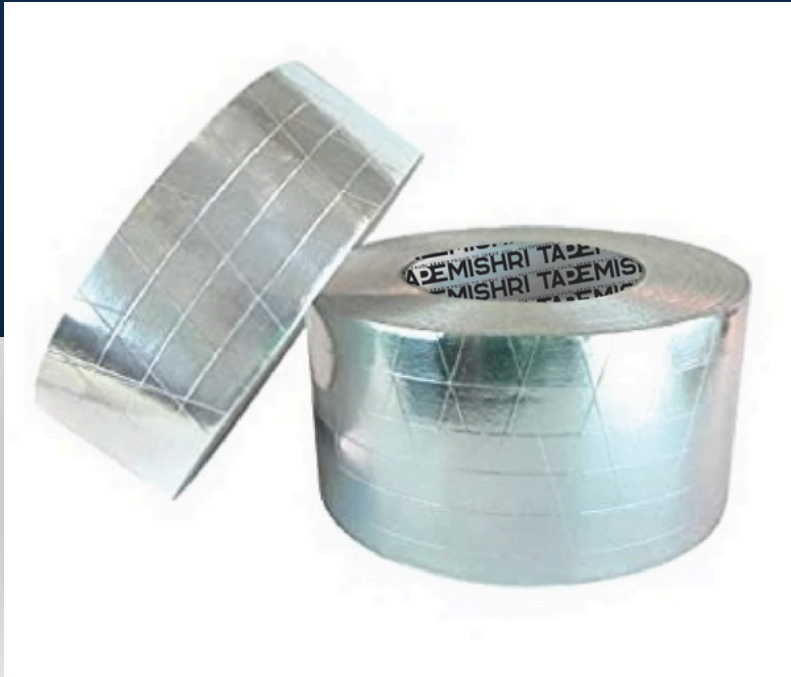

This film is specifically designed for the Robot wrapping machine, ensuring efficient performance. It provides secure and tight wrapping for pallets and products during packaging, transportation, and storage. With its durability and flexibility, it perfectly aligns with the Robot machine for smooth, fast wrapping and optimal product protection.

PRODUCTS

Fabric adhesive tape

High adhesive strength and durability, ideal for heavy-duty use. Made from abrasion-resistant fabric, suitable for both industrial and residential environments. Available in various lengths for quick repairs, insulation, and fastening on different surfaces.

Striped aluminum adhesive tapes

UV, fire, moisture, chemical, and heat-resistant, with strong light reflectivity and high durability. Available in 48mm and 72mm widths, suitable for both indoor and outdoor use, making it ideal for insulation wrapping.

Aluminum adhesive tapes.

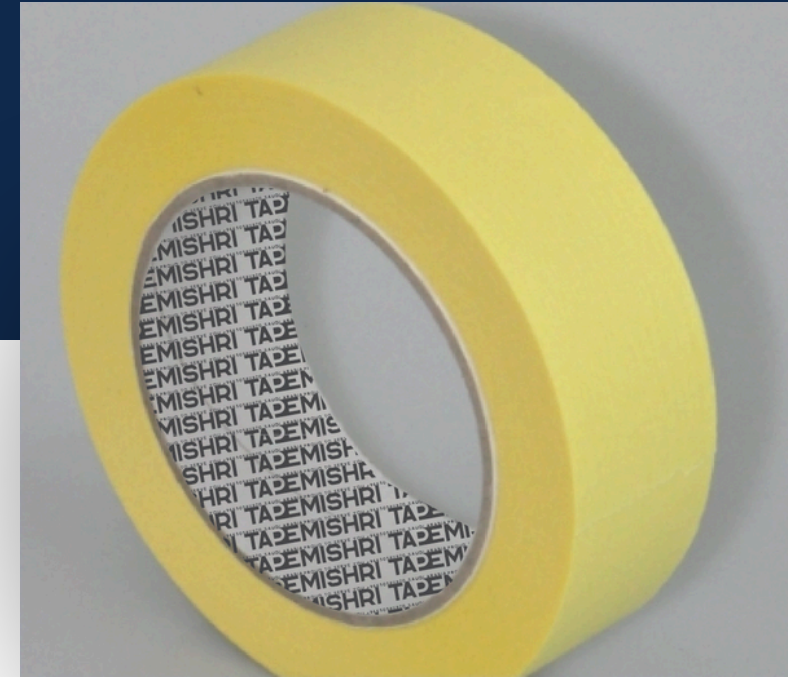

Heat and moisture-resistant, making it ideal for industrial applications and insulation. Provides strong adhesion on various surfaces and is used for pipe insulation and electrical repairs. Available in different lengths, making it an excellent choice for various projects.

PRODUCTS

Paper adhesive tapes

High adhesion without leaving any residue. Made from crepe paper, available in white, and sizes 24mm, 48mm, and 72mm. Ideal for painting, polishing, spraying, and industrial use.

Thermal paper adhesive tapes

Heat-resistant (80 to 140°C) with high adhesion strength and no residue left behind. Made from crepe paper, available in yellow, and sizes 24mm, 48mm, and 72mm. Ideal for painting, polishing, spraying, and industrial use.

White double-sided adhesive tapes

Used to bond materials together by adhering to both sides, making it ideal for gift wrapping, decor installation, and craft applications. It provides strong, invisible adhesion, ensuring a neat and tidy appearance.

PRODUCTS

Electrical adhesive tapes.

Made of PVC, offering strong adhesion, resistance up to 600 volts, and fire resistance. Available in sizes 12mm and 19mm, in various colors, commonly used for insulating electrical wires and automotive bundling.

Colored adhesive tapes

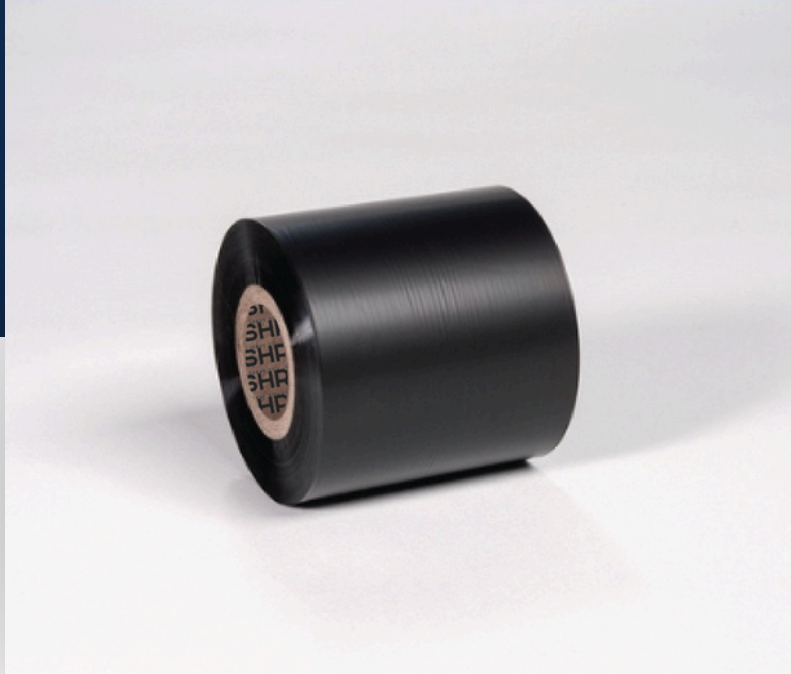

High coating and a polypropylene base, providing excellent resistance to friction and moisture. Available in various sizes, making it ideal for packaging and labeling in different environments, including industrial settings. Available in multiple colors for easy identification of different items.

Printable adhesive tapes

Made from polypropylene film, designed for general advertising. Available in various colors and sizes (24mm, 48mm, and 72mm), ideal for gift wrapping, securing packages, decorations, and educational and industrial purposes.

PRODUCTS

PVC adhesive tapes

Strong adhesion, high resistance to voltage and temperature, along with fire-resistant properties. Made from soft polyvinyl chloride (PVC), available in multiple colors and sizes (48mm and 72mm). Ideal for pipe wrapping, insulation, electronic wiring, and automotive bundling.

Commercial cutting tapes

Allow quick access to products when pulled, featuring pressure-sensitive adhesion for a smooth, wrinkle-free application. Available in clear, brown, beige, white, and red colors, and in sizes 12mm, 18mm, 19mm, and 24mm, commonly used in flexible packaging.

Thermal printing labels

Provide a cost-effective solution for product labeling with customizable options to meet specific needs. Available in various sizes, they are commonly used in e-commerce, shopping centers, supermarkets, warehouses, logistics, medical sectors, food outlets, and retail storefronts.

PRODUCTS

Industrial tapes, 1000-yard length

These tapes feature a high-coating weight acrylic adhesive and a polypropylene base, making them resistant to friction and moisture. Transparent and 1000 yards in length, they are ideal for packaging, sealing recycled paper, cold environments, and protecting cardboard boxes from UV rays.

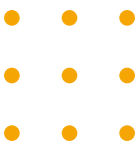

**Industrial tapes, 1000-yard length
(solvent-based)**

Heavy-duty industrial tapes, 1000 yards long, with a solvent-based adhesive, providing strong adhesion and excellent resistance to moisture and temperature. Ideal for heavy-duty packaging and secure fastening in tough environments, ensuring long-lasting durability.

Warning tapes

Warning tapes provide high visibility with vibrant colors and are made from recycled, non-toxic polyethylene material. Available in multiple colors and sizes of 48mm and 72mm, they are ideal for directing traffic and marking hazards, enhancing safety in various areas.

Azhar Almishri

COMPANY HISTORY

The company continues to focus on its commitment to quality and providing the best packaging materials from both local and international sources, while continuing to import products that adhere to global standards, maintaining customer satisfaction, and enhancing their trust.

**Current and
Future Period**

Over this period, the company has successfully introduced locally produced products in the Saudi market and imported materials from Europe and the United States. It has also succeeded in building strong trade relationships with global markets.

**Growth and
Expansion Period
(2000 - 2019)**

The company began its journey in the field of exporting, importing, and manufacturing packaging materials. It places customer needs at the forefront, continuously working to develop its products and services to ensure the provision of innovative and effective solutions.

**The Founding Period
(1989 - 1999)**
